receive details on what we can do for you  
to enhance your business or organization.

## Website Design

More and more people everyday are using the Internet to search for products and services. Part of any business advertising program should include an Internet presence. By having a website, you will have the ability to get your message out to potential customers 24 hours a day, 7 days a week, 365 days a year.

In most cases, we can guarantee a **1 to 2 week turnaround time** for your website design. For simple sites, we are often able to have your site ready to go in less than 1 week. We can even design your site to accept payments on-line that go directly into your bank account. We will also assist you with submitting your site to 30 of the most popular search engines.

Below is a description of the 4 website design packages we offer along with what is included with each.

### Starter Site - \$275

- Homepage
- 1 Content page
- 1 image per page
- 2 Hours Consulting

### Premium Site - \$575

- Homepage
- 4 Content pages
- 2 images per page
- 2 Additional forms
- 3 Hours Consulting

### Basic Site - \$400

- Homepage
- 2 Content pages
- 1 image per page
- 1 Additional form
- 2 Hours Consulting

### Deluxe Site - \$700

- Homepage
- 8 Content pages
- 3 images per page
- 3 Additional forms
- 5 Hours Consulting

If none of the packages above meet your needs, we can give you a price to design your site to your exact specifications. See our website for further details and information about additional options that are available.

## Web Hosting

Our Web hosting services start at \$10.00 per month. We can assist you with obtaining a domain name if you do not already have one and setting-up your e-mail accounts. If you already have a web hosting service and would like to switch, we can assist you with that as well.

## Software Design

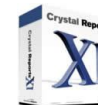

Not all "off-the-shelf" programs can fit everyone's needs. We can custom design your software to fit your exact specifications. We have over 20 years of experience designing custom applications with Visual Basic and applications that integrate the Microsoft Office Professional 2000/2003 products. We also have extensive experience with custom Crystal Reports design.

Complete and detailed project timeline and documentation is included as part of every project we do.

Complete and detailed software, database, and system documentation is provided to you in a variety of electronic formats.

We can design your application to integrate directly with Crystal Reports version 10 or 11. We can also re-design existing reports.

If you need a database, we can design it using Oracle, SQL Server, or Access.

## Graphic Design

Business cards, presentations, brochures, logo's, fliers, mailing labels, letterhead, or program covers; We can create your marketing materials in a number of different formats. From 1 to 1000, we can work with a printer of your choice to produce quality results.

We use Microsoft Publisher, Microsoft PowerPoint, Adobe Photoshop, Adobe Fireworks, Adobe Illustrator, and Adobe Acrobat so that we can provide you with a wide variety of quality graphical design choices in a host of different formats.

We also create multi-media presentations on CD or DVD. We can scan your photos and put them together into a photo slideshow with creative image transitions and background music.

Please contact us with your idea and we will be happy to provide you with a quote for your project.
